// THE THEME

Bridging the gap between

Academia

VS.

Industry

Close the distance between what you learn in class and
real-world industry standards.

// THREE TRACKS • PICK ONE

The Three Tracks

Track 01

LILO Behind the Scenes (BTS)

Solve core student challenges — DSA, résumé screening, interviewing.

Track 02

Leverage AI

Master AI as a learning tool that boosts productivity without becoming a crutch.

Track 03

Unfamiliar Codebase

Build the skill of jumping into and navigating code you didn't write.

// TRACK 01 OF 03

LILO Behind the Scenes

Solve core student challenges — DSA practice, résumé screening, and interviewing.

// EXAMPLE PROJECTS

01 ATS résumé screener

Paste a résumé and a job post — get the keyword gaps and a match score.

02 Job-application tracker

Every application, its status, and follow-up reminders on one board.

03 Mock interview room

Embedded code editor, a timer, and a bank of real DSA prompts.

// TRACK 02 OF 03

Leverage AI

Master AI as a learning tool that boosts productivity without becoming a crutch.

// EXAMPLE PROJECTS

01 Socratic study buddy

An AI that only asks guiding questions — it never hands over the answer.

02 Explain-my-error assistant

Walks through a stack trace and points at the concept you're missing.

03 Lecture-to-practice generator

Turns your class notes into a quiz and a set of coding drills.

SEPT 11-12 • 2026

// TRACK 03 OF 03

Unfamiliar Codebase

Build the skill of jumping into and navigating code you didn't write.

// EXAMPLE PROJECTS

01 Visual debugger

Step through a program and watch its data structures change live.

02 Repo onboarding map

Point it at any repo and get a "start here" tour of the architecture.

03 Git history storyteller

Explains why a file looks the way it does from its commit history.

Getting Unblocked

[DISCORD INVITE]

Questions during the 24 hours go in the hackathon Discord. Staff are there the whole time — post, don't wait for office hours.

Staff will

- ✓ Answer rules and logistics questions
- ✓ Help you get unstuck on setup and tooling
- ✓ Point you to docs and resources

Staff won't

- × Write or debug your project code
- × Review your submission early
- × Extend the deadline
